introduction

benefits

statement of line

INTRODUCING SHIELD CASEWORK® the solid surface line of healthcare casework.

SHIELD CASEWORK®

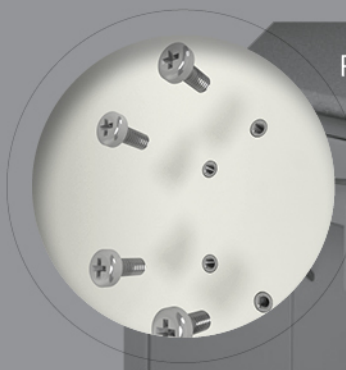
TO FACE TODAY'S HEALTHCARE CHALLENGES, YOU NEED THE BEST IDEAS AND MOST INNOVATIVE PRODUCTS.

With nearly 100,000 people dying each year of healthcare-associated infections, how can we prevent the spread of bacteria, viruses and mold? How can we help hospital staff clean more effectively? What can we do to build sustainable and durable spaces that minimize repairs and reduce the cost for renovations?

At Shield, we believe long-term thinking is key. We accomplish this by using solid surface material for surfaces in healthcare. Its microbial-resistant properties and long lifespan give our casework, headwalls and other applications a nonporous shield that offers healthcare facilities a leg up on the competition. A product of results-driven design and the feedback of healthcare professionals, our solutions help prevent the spread of HAIs, establish beautiful spaces and improve the patient experience.

www.shieldcasework.com

DURABILITY. PROTECTION. VALUE.

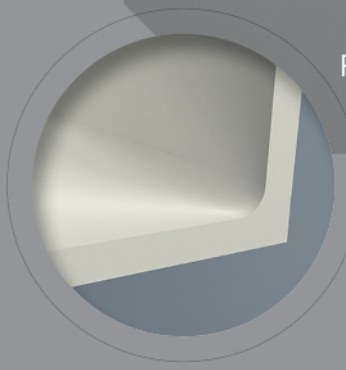


Patent pending embedded metal inserts secure our hardware to provide nearly indestructible connections.

SHIELD CASEWORK®

manufactures the leading line of casework made entirely from seamless solid surface material, providing the greatest **DURABILITY, PROTECTION, AND VALUE** for healthcare professionals and designers.

Shield Casework® is a solid surface product. Solid surface is non-porous, seamless and microbial resistant.



Radiused corners enable completely cleanable edges and prevent contamination from residue buildup.
